

CWL Wednesday

Executive Orientation

Jan. 5, 12, 19 and 26

To encourage the use of the new National Catholic Women's League Executive Orientation Program (#828), councils were given the opportunity to attend virtually a series of four evenings. Each evening had a different focus based on the sections from the workshop. These ranged from the History of the League to Public Presence and Member Development. Each session was well attended. Over the 4 evenings, more than 300 members attended at least one of the evening presentations.

Councils are encouraged to use the different modules in their parish councils during council meetings. They are short and can be used as a recording or as a power point only. With this new workshop from the Strategic Plan Implementation Committee it is hoped that councils will gain a deeper knowledge of the League.
